

## Breaking Barriers, Unlocking Possibilities

*Some barriers are visible, while others quietly limit opportunities every day. The ability to travel independently, pursue education, access employment, attend social gatherings, or simply engage with the community should never be determined by mobility limitations. Yet for many persons living with spinal cord injury, these challenges remain a part of daily life.*

For individuals living with permanent paralysis, travelling longer distances in a manual wheelchair can often be physically demanding and exhausting. Limited mobility can affect access to opportunities, social participation, healthcare services, and everyday activities that many of us take for granted.

A NeoBolt is much more than an assistive device. By transforming a manual wheelchair into a powered mobility solution, it enables users to travel greater distances with reduced physical effort, empowering them to participate more actively and independently in daily life.

Recognizing this important need, Soulfree distributed **3 NeoBolts** to spinal cord injured beneficiaries through its Outreach Program during **March 2026**.

*For many beneficiaries, receiving a NeoBolt means gaining the confidence to venture beyond familiar surroundings, pursue opportunities with greater independence, and reconnect with the world around them.*

This meaningful intervention was made possible through the generous support of **Kellogg Brown & Root Engineering and Construction India Private Limited (KBR)**. Their commitment to empowering persons with spinal cord injury has enabled beneficiaries to access innovative mobility solutions that enhance independence, confidence, and community participation.

At Soulfree, we believe that true inclusion is achieved when individuals are empowered to make choices, pursue aspirations, and participate fully in society. Access to appropriate assistive technology helps remove barriers and opens doors to greater independence and opportunity.

*Every NeoBolt distributed represents more than enhanced mobility—it represents possibility, empowerment, and the freedom to move towards a brighter future.*

We extend our heartfelt gratitude to KBR for partnering with us in creating meaningful change and supporting our mission to build a more inclusive and compassionate society.

The poster features the Soulfree logo (a stylized butterfly) and the text "OUTREACH in ACTION" in large, bold letters, with "NEOBOLT DRIVE" below it. To the right, it says "Sponsored by KBR" with the KBR logo. Below the text are three photographs of men using NeoBolts, each with a name tag: DEVARAJ, JAYAGANESH, and SELVAM. At the bottom, a dark blue banner contains a bicycle icon, the text "3 NEOBOLTS. 3 LIVES EMPOWERED.", and "SPONSORED BY KBR". To the right of this banner is a heart icon and the text "Supporting individuals to move beyond barriers and live independently." At the very bottom, a decorative line with a heart and the text "Empowering Mobility, Enabling Independence" is shown.
